Having regard to the Treaty on the Functioning of the European Union,

Having regard to Council Directive 96/23/EC of 29 April 1996 on measures to monitor certain substances and residues thereof in live animals and animal products and repealing Directives 85/358/EEC and 86/469/EEC and Decisions 89/187/EEC and 91/664/EEC ⁽¹⁾, and in particular Article 29(1), fourth subparagraph, and Article 29(2) thereof,

Having regard to Regulation (EU) 2017/625 of the European Parliament and of the Council of 15 March 2017 on official controls and other official activities performed to ensure the application of food and feed law, rules on animal health and welfare, plant health and plant protection products, amending Regulations (EC) No 999/2001, (EC) No 396/2005, (EC) No 1069/2009, (EC) No 1107/2009, (EU) No 1151/2012, (EU) No 652/2014, (EU) 2016/429 and (EU) 2016/2031 of the European Parliament and of the Council, Council Regulations (EC) No 1/2005 and (EC) No 1099/2009 and Council Directives 98/58/EC, 1999/74/EC, 2007/43/EC, 2008/119/EC and 2008/120/EC, and repealing Regulations (EC) No 854/2004 and (EC) No 882/2004 of the European Parliament and of the Council, Council Directives 89/608/EEC, 89/662/EEC, 90/425/EEC, 91/496/EEC, 96/23/EC, 96/93/EC and 97/78/EC and Council Decision 92/438/EEC (Official Controls Regulation) ⁽²⁾, and in particular Article 127(2) thereof,

Whereas:

- (1) Regulation (EU) 2017/625 lays down rules for official controls and other control activities performed by the competent authorities of the Member States in order to verify compliance with Union legislation in the area of, among others, food safety at any stage of production, processing and distribution. In particular, it provides that only consignments of certain animals and goods from a third country or region thereof which appears on a list drawn up by the Commission for that purpose are to enter the Union.
- (2) Commission Delegated Regulation (EU) 2022/2292 ⁽³⁾ supplements Regulation (EU) 2017/625 as regards the conditions for the entry into the Union of consignments of food-producing animals and certain goods intended for human consumption from third countries or regions thereof, in order to ensure that they comply with the relevant requirements established in the rules on food safety referred to in Article 1(2)(a) of Regulation (EU) 2017/625 or with requirements recognised to be at least equivalent thereto. In particular, Delegated Regulation (EU) 2022/2292 identifies the animals and goods intended for human consumption that are subject to the requirement to come from a third country or region thereof which appears on the list referred to in Article 126(2)(a) of Regulation (EU) 2017/625.

⁽¹⁾ OJ L 125, 23.5.1996, p. 10.

⁽²⁾ OJ L 95, 7.4.2017, p. 1.

⁽³⁾ Commission Delegated Regulation (EU) 2022/2292 of 6 September 2022 supplementing Regulation (EU) 2017/625 of the European Parliament and of the Council with regard to requirements for the entry into the Union of consignments of food-producing animals and certain goods intended for human consumption (see page 1 of this Official Journal).

- (3) Commission Implementing Regulation (EU) 2021/405 ⁽⁴⁾ lays down the lists of third countries or regions thereof from which the entry into the Union of consignments of certain animals and goods intended for human consumption is permitted in accordance with Article 126(2)(a) of Regulation (EU) 2017/625.
- (4) Regulation (EU) 2017/625 repealed Directive 96/23/EC, but provides that Article 29(1) and (2) of that Directive are to continue to apply until 14 December 2022.
- (5) Commission Decision 2011/163/EU ⁽⁵⁾ lists the third countries for which control plans on the use of pharmacologically active substances, maximum residue limits of pharmacologically active substances, maximum residue levels of pesticides and maximum levels of contaminants, which are referred to in Article 29(1) of Directive 96/23/EC in conjunction with Annex I to that Directive, have been approved.
- (6) Article 7 of Delegated Regulation (EU) 2022/2292 provides that, in addition to the conditions laid down in Regulation (EU) 2017/625, consignments of food-producing animals, products of animal origin and composite products are to enter the Union only from a third country included in the list of third countries approved for the entry into the Union of the concerned food-producing animals or products of animal origin for human consumption.

Therefore, Decision 2011/163/EU should be repealed and the list set out in the Annex to that Decision should be inserted in Implementing Regulation (EU) 2021/405.
- (8) Implementing Regulation (EU) 2021/405 should therefore be amended accordingly.
- (9) As Delegated Regulation (EU) 2022/2292 applies from 15 December 2022, this Regulation should apply from that date as well.

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Regulation (EU) 2017/625 of the European Parliament and of the Council of 15 March 2017 on official controls and other official activities performed to ensure the application of food and feed law, rules on animal health and welfare, plant health and plant protection products, amending Regulations (EC) No 999/2001, (EC) No 396/2005, (EC) No 1069/2009, (EC) No 1107/2009, (EU) No 1151/2012, (EU) No 652/2014, (EU) 2016/429 and (EU) 2016/2031 of the European Parliament and of the Council, Council Regulations (EC) No 1/2005 and (EC) No 1099/2009 and Council Directives 98/58/EC, 1999/74/EC, 2007/43/EC, 2008/119/EC and 2008/120/EC, and repealing Regulations (EC) No 854/2004 and (EC) No 882/2004 of the European Parliament and of the Council, Council Directives 89/608/EEC, 89/662/EEC, 90/425/EEC, 91/496/EEC, 96/23/EC, 96/93/EC and 97/78/EC and Council Decision 92/438/EEC (Official Controls Regulation) ⁽¹⁾, and in particular Article 127(2) thereof,

Whereas:

- (1) Commission Delegated Regulation (EU) 2022/2292 ⁽²⁾ supplements Regulation (EU) 2017/625 and aims to ensure that consignments of food-producing animals and certain goods intended for human consumption from third countries or regions thereof comply with certain Union food safety requirements or those recognised to be at least equivalent thereto. In particular, that Regulation identifies the animals and goods intended for human consumption that are subject to the requirement to come from a third country or region thereof which appears on the list referred to in Article 126(2)(a) of Regulation (EU) 2017/625.
- (2) Article 7 of Delegated Regulation (EU) 2022/2292 provides that certain consignments of food-producing animals, products of animal origin and composite products are to enter the Union only from a third country included in the list of third countries approved for the entry into the Union of such consignments for human consumption.
- (3) Commission Implementing Regulation (EU) 2021/405 ⁽³⁾ lays down a list of third countries or regions thereof authorised for the entry into the Union of consignments of certain highly refined products, intended for human consumption.

⁽¹⁾ OJ L 95, 7.4.2017, p. 1.

⁽²⁾ Commission Delegated Regulation (EU) 2022/2292 of 6 September 2022 supplementing Regulation (EU) 2017/625 of the European Parliament and of the Council with regard to requirements for the entry into the Union of consignments of food-producing animals and certain goods intended for human consumption (OJ L 304, 24.11.2022, p. 1).

⁽³⁾ Commission Implementing Regulation (EU) 2021/405 of 24 March 2021 laying down the lists of third countries or regions thereof authorised for the entry into the Union of certain animals and goods intended for human consumption in accordance with Regulation (EU) 2017/625 of the European Parliament and of the Council (OJ L 114, 31.3.2021, p. 118).

- (4) Since a recent amendment ⁽⁴⁾ of Regulation (EC) No 853/2004 of the European Parliament and of the Council ⁽⁵⁾, highly refined products also cover fat derivatives and food flavourings that are authorized in accordance with Regulation (EC) No 1334/2008 of the European Parliament and of the Council ⁽⁶⁾, subject to treatments excluding any public or animal health risk. Implementing Regulation (EU) 2021/405 should be amended to be consistent with this change.
- (5) Azerbaijan has submitted a control plan, which covers roes and caviar. The plan provides sufficient guarantees and should therefore be approved.
- (6) Lebanon has submitted a control plan, which covers honey. The plan provides sufficient guarantees and should therefore be approved.
- (7) Isle of Man is listed in the table of Annex -I to Implementing Regulation (EU) 2021/405 for its export to the Union of ovine and caprine meat. However, Isle of Man has informed the Commission that it is no longer interested in exporting caprine meat to the Union. The entry for Isle of Man for ovine and caprine meat in that table of Annex -I to Implementing Regulation (EU) 2021/405 should therefore only cover ovine meat.
- (8) Japan is listed in the table of Annex -I to Implementing Regulation (EU) 2021/405 for their export to the Union of pork meat. However, Japan has informed the Commission that it is no longer interested in submitting a control plan for pork meat but intends to use only pork meat originating either from Member States or third countries from which such products are authorised for entry into the Union. Consequently, the entry for Japan for pork meat should be adapted accordingly in Annex -I to Implementing Regulation (EU) 2021/405.
- (9) The United Kingdom is listed in the table of Annex -I to Implementing Regulation (EU) 2021/405 for their export to the Union of rabbit meat. However, the United Kingdom has informed the Commission that it is no longer interested to submit a control plan for rabbit meat but intends to use only rabbit meat originating either from Member States or third countries from which such products are authorised for entry into the Union. Consequently, the entry for United Kingdom for rabbit meat should be adapted accordingly in Annex -I to Implementing Regulation (EU) 2021/405.
- (10) Thailand has not submitted to the Commission a control plan for milk. However, Thailand has provided guarantees to use only milk originating either from Member States or third countries from which milk is authorised for entry into the Union. It has also informed the Commission that such milk to be exported to the Union will not be limited to composite products containing processed milk products. Consequently, the entry for Thailand for milk should be adapted accordingly in Annex -I to Implementing Regulation (EU) 2021/405.
- (11) The United States of America has submitted a control plan, which covers casings. The plan provides sufficient guarantees and should therefore be approved.
- (12) Rwanda is currently listed in the table of Annex -I to Implementing Regulation (EU) 2021/405 for honey and Colombia and Syria are listed for casings. As those third countries have not submitted to the Commission plans for the respective products, those entries should be deleted from the table in that Annex.
- (13) Moldova submitted a *Salmonella* control programme in flocks of laying hens in order to be authorised for the entry into the Union of class A eggs in accordance with Article 7 of Implementing Regulation (EU) 2021/405. That control programme was assessed with satisfaction by the Commission. The compliance related to the requirements on *Salmonella* control in accordance with Article 10(6) of Regulation (EC) No 2160/2003 of the European Parliament and of the Council ⁽⁷⁾ was double checked during the audit carried out by the Commission in April 2022 ⁽⁸⁾. Moldova should therefore be authorised for the entry into the Union of class A eggs.
